The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/587,422	Applicant(s) SHEARER-ROBINSON, ABIGAIL	
	Examiner José V. Chen	Art Unit 3637	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

With respect to applicant's remarks regarding the filing of two sets of claims, it is noted here that both sets of claims filed 007/25/09 were the PCT filed claims and contained the aforementioned objections to the claims. However, the amendment of the claims filed 05/18/09 makes the objection moot.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 1-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over in view of Goldberg et al ('702) in view of Calton. The patent to Goldberg et al teaches structure substantially as claimed including support surface (10) comprising a flat contiguous table top (81) and receptacle (80) , legs (50), the top having a dimension greater than that of the container so as to obfuscate an opening from view the only difference being that the legs are not releasably attached to the top. However, the

Art Unit: 3637

patent to Calton (figs. 1-2) teaches the use of releasable attachment between leg and table structure to provide knockdown capability. It would have been obvious at the time of the invention to modify the structure of Goldberg et al to include a releasable attachment of the legs, as taught by Calton, since such structures are conventional alternative structures used in the same intended purpose and would have been reasonably predictable, thereby providing structure as claimed. The method would have been obvious of the structures. The use of different well known hardware structures, such as cotter pins, nut and bolts, screws, nails which available at any hardware store, such as Home Depot, Lowes, such hardware structures used in the same well known intended purpose would have been obvious and well within the level of ordinary skill in the art and further reasonably predictable. Applicant is given Official notice of such. It is noted here that applicant does not argue the notice.

Response to Arguments

Applicant's arguments filed 05/18/09 have been fully considered but they are not persuasive. Note the remarks above. The prior art applied teaches structure able to function as claimed.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3637

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
